River day recout

~~What we~~ we went on a walk yesterday whit
~~the~~ in fibre

yesterday we went on a walk whit fiber fibre
trust to waddington brook. Because all topic is
water and we had a little tray whithe little
creters in it we youst a beket to suk them up
and have a closer look. In a little tub with
a magnifying glass stuck to it so we can
see them very well and we walk all the way
to waddington brook.

we did it because all topic is water so
then we now more and more about them.
Because we didnt now much about them at
all well not that much.

we learnt that the end of a river is call a
mouth that is hear the river ends and the water
is so so so strong it is like it has it own
super power it was so cool because I never new
that.

my favourat part was the enlarg thing because
it was so amazing but the sheep pool.

A great recout (2m)
